

8th Grade GEAR UP VIRTUAL CODING WORKSHOP

with Texas Instruments

Saturday, October 24 & 31

10:30 a.m. – 12:30 p.m.

GEAR UP 8th grade students, you have an opportunity to bring science and coding together (no coding experience necessary) while developing a mood ring. Students will sharpen their critical and creative thinking skills as they define problems and design and refine solutions using the TI-Nspire™ II CX graphing calculator to program a TI-Innovator™ Hub.

Supplies will be loaned out for this workshop. Participating students will be expected to return equipment upon completion of the workshop.

LIMITED SPACES AVAILABLE

Register [HERE](#) or call the K-12 College and Career Readiness/GEAR UP Office at (260) 467-7287
